* In the past several years many public schools with a student population >40% FRL status have begun participating in the Community Eligibility Provision, a federal program enabling schools to serve breakfast and lunch at no cost to all enrolled students without the administrative burden of collecting household applications. As a result, KCPS and many charter schools no longer track FRL status and FRL numbers for these schools are reported at 100%. DESE is looking for another way of tracking this information; in the meantime I've used the last year that schools reported precise FRL data to approximate subsequent years. In KCPS this was 2014 (90%); for charter schools the year varies from school to school

- Notes: 1) Between 2008 and 2009 KCPS enrollment lost ~2900 students as a result of the annexation of 7 KCPS schools to the Independence School District. The annexation accounts for 60% of the overall enrollment drop for KCPS between 2008 and 2009, and the steep decline across demographic categories between those years
- 2) 2017 enrollment numbers for Kansas City Neighborhood Academy, a K-3 charter school sponsored by KCPS, are reported under KCPS
- 3) For a summary analysis of 2017-2018 enrollment data visit www.settheschoolsfree.org

3. Race & Ethnicity: ALL Public Schools, KCPS Boundaries

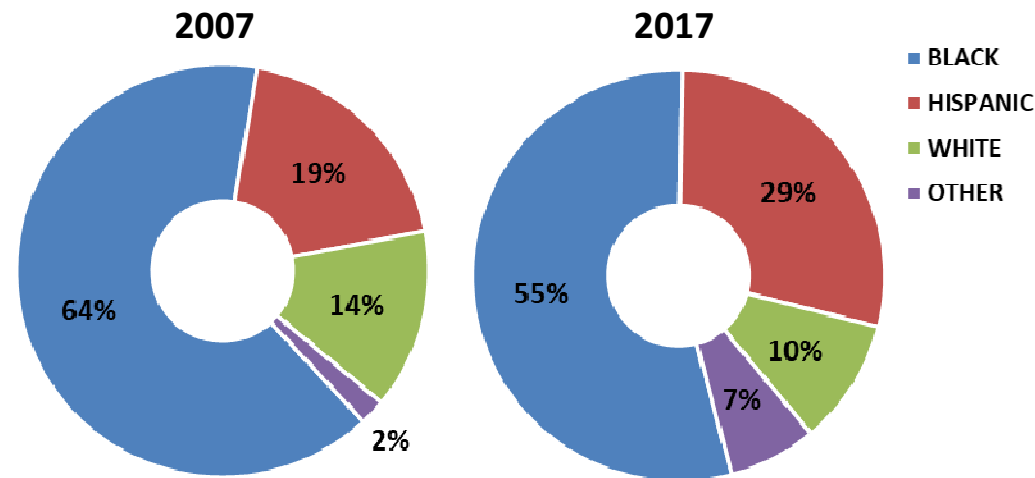

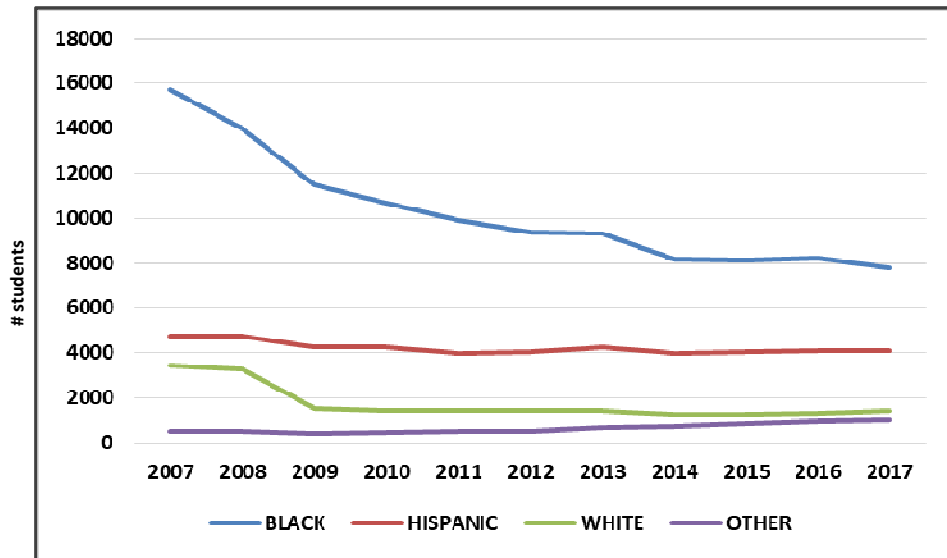

Note: Asian, Indian, Multi-racial, & Pacific Islander students within KCPS boundaries are aggregated under "Other" because of their comparatively small numbers

- Notes: 1) Demographic enrollment numbers reported for 2013 and 2014 are slightly higher than Building Enrollment figures elsewhere on account of a data discrepancy related to Hope Academy, a charter school that closed in 2014. As a result, enrollment numbers for Race & Ethnicity are slightly inflated for 2013 (207 students) and 2014 (232 students)
- 2) Between 2008 and 2009 KCPS enrollment lost ~2900 students as a result of the annexation of 7 KCPS schools to the Independence School District. The annexation accounts for 60% of the overall enrollment drop for KCPS between 2008 and 2009, and the steep decline across demographic categories between those years
